**More Than 600 Volunteer Hours for the Year**

Currently our club has 17 members. Please consider joining our club and helping your community and the world at large

*Thank you for your continued support*

# GoManitoba!

green  
**ACTION**  
centre

GoManitoba's goal is to address the transportation gap across our province by bringing sustainable, healthy commuting options to all Manitobans. Its purpose is to ease travel by helping to facilitate carpools, promote public transit use where available, and match bike and walk mentors. It is a quick, secure, and personal way to find your commuting options, simply using your home and work (or other destination) addresses.

GoManitoba is a free tool to match users with similar trips and destinations. We all have routine trips that we make, be they to work, social outings, school, or to the city. With GoManitoba, drivers can share the cost of gas and wear-and-tear on their vehicle for their trips with a passenger seeking a ride to a nearby destination. GoManitoba's algorithm matches people for similar trips, based on starting location, destination, and time of travel.

"If you have joined a friend or family member in a ride to a common destination, you've experienced a carpool" says Mel Marginet, one of GoManitoba's coordinators. "To make carpooling more successful, you have to have enough drivers and passengers to find a good match. GoManitoba connects people in one place to make those connections, and increases opportunities to socialize with the wider community to more destinations."

Organizations and municipalities can create their own networks for free on GoManitoba to increase transportation options, social and economic participation within their community or organization. Visit [gomb.ca](http://gomb.ca) to create your account today. Interested in bringing GoManitoba to your organization or town? Email: [gohappy@greenactioncentre.ca](mailto:gohappy@greenactioncentre.ca) for details on becoming a network.

## PARTNER HIGHLIGHT...

## YOU ARE NOT ALONE.

The Alzheimer Society of Manitoba is your path forward to a community of dementia support, resources and information.

Whether you're worried about dementia, have recently received a diagnosis or need help navigating the changes and challenges that come with progression of the disease, the Society connects you with helpful resources to meet your needs. These include one-to-one support, education sessions, support groups, dementia-friendly programming and more.

The holiday season can be an especially difficult time for families navigating dementia – but know that you are not alone.

Connect with the Society today by calling 204-943-6622 (Winnipeg),  
1-800-378-6699 (Manitoba) or emailing [alzmb@alzheimer.mb.ca](mailto:alzmb@alzheimer.mb.ca).

# SOCIAL PRESCRIBING IN ACTION

## Social prescribing is empowering, says family physician...

Healthcare providers often see patients who present with non-medical issues, including older adults who are socially isolated or lonely.

Social prescribing enables healthcare providers to refer these patients to the Senior Resources Coordinator (SRC) in the community. The referral is easy to make via an Electronic Medical Record form. When the SRC receives a referral, they then work with the older adult to connect them with appropriate programs and resources, such as exercise classes, support groups, or meal programs.

Being able to connect patients with community resources can feel empowering for healthcare providers. "This isn't something you can prescribe a pill for or just fix. So it's actually kind of empowering to be able to at least address some of what the actual issues are," said a Winnipeg family physician.

**It's actually kind of empowering to be able to at least address some of what the actual issues are. (Family physician).**

Referral to a SRC can make a big difference for an older adult. Research shows that social prescribing can enhance older adults' social connection, and improve mental health and well-being. A patient in Winnipeg who was referred to a SRC put it this way: "I made some friends, I don't feel so lonely, and I don't feel so alone. I'm glad I have such a good doctor who cares enough to refer me to a Senior Resource Coordinator."

And healthcare providers see the difference in their patients. A Winnipeg family physician commented: "I've seen first-hand that people who are more engaged in their community and feel connected and supported within their community tend to have better overall coping skills and better overall mental health."

Bild, E., & Pachana, N. (2022). Social prescribing: A narrative review of how community engagement can improve well-being in later life. *Journal of Community & Applied Social Psychology*, 32(6), 1148-1215.

 **Congratulations to Colleen Tackaberry**, retiring after 20+ years as the Seniors Resource Coordinator at Transcona Resource Council for Seniors. Colleen has been a steady, trusted support for older adults and a true leader in Social Prescribing, embracing referrals and helping shape this new system in Manitoba. As we celebrate her work, we also honour all Resource Coordinators, who quietly strengthen communities every day.

**Do you know your Resource Coordinator?** They are helping make growing older in Manitoba more connected and supported.

## OUR VOICE FOR OLDER MANITOBIANS

For older Manitobans, winter driving is more than a seasonal challenge; it is about staying connected to health, community, independence, and safe travel. Transportation ensures dignity and access to essentials like medical care, groceries, and social gatherings. When icy roads or blowing snow make trips risky, Age Friendly transportation programs such as volunteer driving, carpooling (Go Manitoba), and accessible transit become lifelines. Preparedness with winter tires and emergency kits; patience through slower speeds and extra travel time, and partnerships among neighbours, volunteers, and municipalities all strengthen resilience.

Transportation is ultimately about relationships: a driver who waits to ensure someone gets safely inside or a transit operator offering a steady hand embodies the Age Friendly spirit. By blending practical safety tips with community-based solutions, we ensure winter roads remain pathways to connection, not barriers to belonging.
